

## **Brief CV**

### **Dr Richard Kamendje**

Dr Richard Kamendje holds a degree in Engineering Physics. Pushing the frontiers of fusion development remains the leitmotiv of his professional career, during which he has held key positions at the JET facilities and the IAEA. Currently, he serves the EUROfusion Consortium as Senior Manager for International Collaborations and, in that, strategically interfaces with various key players around the world in effort to advance DEMO design and DEMO R&D.
